

GLOBEWEST OUTDOOR COLLECTIONS 2021

GlobeWest announce the arrival of Outdoor Collections 2021, welcoming 4 entirely new ranges, 50 fresh styles and a multitude of new colours to their designer outdoor furniture collection.

Soft, neutral colours of biscuit and sand contrast with an earthy palette of moss and terracotta. Soft-to-touch fabrics, woven resin and rope details bring vibrance and intrigue to outdoor living, dining & poolside spaces. Crafted grey washed and turned teak detailing bring warmth whilst ultra-cushioned sofas beckon long summer days outside.

"Considering 2020, we were determined that this collection deliver mood-boosting spaces for Australians and celebrate the freedom and exhalation that comes from outdoor living." Explains GlobeWest Head of Creative Ketí Lytras.

"Curvaceous forms, beautiful textures and diverse materials draw visual connection to their natural surroundings to invite joy & relaxation in." She continues.

New Collections

A youthful take on mixed materials, round table collection **Cali** features inset slatted teak tops on sleek powder-coated cross-bar metal frames. Silhouettes are clean and modern providing a polished yet relaxed aesthetic for smaller spaces.

Evoking the Riviera's rustic sundecks, **Cannes** brings contemporary country appeal. Curvaceous tables on pillar-style legs ignite conversational dining outdoors. Plush, 1 & 3 Seater Sofas with beautiful woven rope detailing, luxurious sunproof upholstery, and quick dry cushions enhance alfresco relaxation.

A contemporary take on provincial French flair, **Normandy's** subtle turned timber contours, luxurious forms and unobtrusive open weaves offer lightness and timelessness to elevate outdoor living.

Standout new sofa range **Wilomena** blends a contemporary solid teak frame with delightfully plush and generous sunproof cushions for versatile and inviting outdoor comfort.

Highlights to Ongoing Collections

Striking ribbed details and cubic forms emerge in **Ossa**, adding tactility and sculptural impact to the concrete range.

Neutral and moody moss colourways have been added to **Aruba**.

A sumptuous coal fabric comes to the **Hamptons** collection whilst **Granada** stirs joy and intrigue with armchairs in bright terracotta resin weaving.

Hourglass & goblet shaped stools, dome style outdoor pendants and handwoven rugs in colours of Autumn, Acorn & Pebble round out the new collection.

Outdoor Technology

The GlobeWest Outdoor collection incorporates scientifically developed technologies including Sunbrella & Sunproof 100% recyclable upholstery, Ecolene wicker and Quickdry foams ensuring the durability of its outdoor products match its quintessential Australian style. Learn More [here](#).
