

SNEAK PEEK:  
GUS\* MODERN SPRING 2018 COLLECTION

Exclusive Australian distributor GlobeWest provides first-look at 2018 collection from Canadian home furnishings brand Gus\* Modern.

“Australians have embraced Gus\* and we’re excited to bring innovative new upholstery silhouettes and architecturally influenced case goods to our design-savvy customers.” says Keti Lytras, GlobeWest Design Manager.

Collection highlights include the Astrid Sofa and Hilary Chair, designs which are notable for their strong, organic curves. While versatile new accent chairs are also standouts. Keti says “It’s great to see bold pops of primary colour and beautiful, soft curves in the upholstery.”

The **Margot Sofa Chair** – born from designer favourite, the Margot velvet 3 seater sofa – the Margot Sofa Chair epitomizes modern elegance with graceful arms, luxurious upholstery and interchangeable brass and black legs to construct a look both contemporary and timeless.

The **Oskar Sofa** is both soft and strong, offering structure and comfort. It includes reversible feather blend cushions on an open-slatted, solid wood frame which reveals subtle finger-joint detailing and features slim, metal cross-bracing.

Significant innovation is also seen in Gus\* latest case goods offering:

The **Array Oval Coffee Table** features an elegant, geometric base that repeats around a central axis to create a contemporary look. Part of the Array Table Series, it is designed to nest with the Array End Table.

“We particularly love the fine framing and lightness created by their new storage pieces says Keti Lytras, Design Manager at GlobeWest.

The **Emerson Storage Series** offers minimalist design, contrasting wood grain with smooth lacquered surfaces. The tall and slender powdercoated legs create an illusion of weightlessness. Both timeless and contemporary, the storage series includes a buffet, entertainment unit and bedside.

The **Myles Storage Series** combines subtle details and craftsmanship to create storage design that exudes simple sophistication. Rose gold handles contrast dark stained, chevron-patterned oak. The storage series includes a buffet, entertainment unit and bedside.

The architecturally inspired **Belmont Storage Series** features the natural beauty of walnut. Black finished handles contrast warm, wood doors and drawers. Includes a buffet, entertainment unit and bedside.

The new Gus\* Collection launches in February 2018 and is exclusive to GlobeWest. Available via authorised GlobeWest retail stockists and design professionals.
