

Holiday at Home | GlobeWest introduces their latest Outdoor furniture

September 2015: *Noosa, Montego, Florida, Southport & Antigua* are the latest ranges to be released as part of GlobeWest’s Collections 2017.

With fine white framing, teak wooden details and pale grey upholstery, *Antigua* offers a modern light feel across sofas, chairs and sunbed designs.

The *Florida* range includes a versatile sectional sofa with a solid natural teak frame. The use of dark upholstery keeps the piece contemporary and modern. A unique oval-shaped dining table is also a welcome addition to this range.

The brand new *Noosa* range offers interesting paneling and outdoor rattan and teak furniture armchairs, tables, sofas, occasional chairs and coffee tables.

Southport satisfies a traditional look. Woven sofa pieces and chairs, as well as tables in teak are both comfortable and classic.

Slick and modern modular pieces form the *Montego* range. The various modular pieces offer flexibility for different spaces. This range provides the option of charcoal and anthracite or pale grey and white.

In addition to these five exciting ranges, brand new pieces have also been added to GlobeWest’s existing range. Sure favorites include the *Granada* butterfly occasional chair and *Aperto*’s new curve sofa, which offers a minimal indoor/outdoor feel.

GlobeWest’s premium quality outdoor furniture integrates scientifically developed technologies to optimise product durability in harsh climates.

Technologies Explained

<i>Sunbrella</i>	<i>Quick Dry Foam</i>	<i>Polystrand</i>
<ul style="list-style-type: none"> • Fade resistant • Water-repellant • Stain-proof • Breathable • Mould resistant • UV Protection 	<ul style="list-style-type: none"> • Dries faster than regular foams • Resistant to natural mould • Resistant to fungus 	<ul style="list-style-type: none"> • Lightweight • Strong • Highly Durable
